21. For (I)

P.W.D.

Submitted.

beginning 21- The S.E. s.e. has submitted the plans & P.3(215) ff estimate, the latter amounting to Rs.2857/- for providing lighting arrangements in the Rest House, at Haveri, for obtaining appl. of the Govt. of India, thereto

31- This is one of the work Govt. has decided to electrify during the next two to three years. It is, however, not included in the list of the bungalows to be electrified during the Current year. It may, however, be stated that as it is on the National Highway, the expenditure will have to be recovered from the Govt of India. Incidentally, it may be pointed out that the repn. of electric installation are not according to the prescribed scale of el. fittings.

4/- It is, therefore, for consideration whether the plans & estimate may be forwarded to the Govt. of India for is- appl. If it is so, the E.D. may see U.O. in the first instance.

CB(II)

Thro' AR(I) & D.E(I)

The Govt of India will probably like to see the plans or the estimate for accord appl. approval.

I think there are certain conditions laid down by the GOI before the work is undertaken. Pl verify if the conditions are fulfilled

15/5

2565/48/33030.

El. Br (I) P.W.D.

Resubmitted with ref. to the Useey's note at the 15-5-50, overleaf

2. On this connection it may be stated that the conditions laid down by the Govt. of India in a similar case are as under:-

Bungalows concerned are utilised sufficiently frequently to justify the proposed el. install. on the grounds of economy & on the clear understanding that the addl. fees levied on account of the el. installation will bring in an average annual revenue to the Provincial Govt. at least equal to the 12% of the cost of install. plus the cost of current consumed in a year."

These conditions should be fulfilled before taking the work in hand for execution.

3. It is not known whether the above mentioned conditions are fulfilled in the present case. It may, therefore, in the first instance, be ascertained from the S.E., SC the papers may therefore be refd. to the S.E., SC, with a request to verify if the conditions are fulfilled & to submit this report thro' the El. Engr. to Govt.

No.D.D.18. S.E.S.C.Belgaum.

Returned with compliments.

2. The Rest House at Haveri consists of two suites and is occupied for 216 days only, on an average in a year. Rupee one per day (i.e. Rs.0-8-0 per suite per day) will have to be recovered as electric charges and will bring an additional income of Rs.216/- per year; but an additional annual income of at least Rs.463/- is required to satisfy the condition laid down in para 2 of Govt. P.W.D. Bombay's note dated the 3rd June 1950, as shown below:-

Additional annual income required to fulfil the conditions.) 12 % of cost of electric installation plus cost of current consumption in a year • 12 % of Rs. 2857 + Rs. 120/- cost of consumption of current per year, assumed for similar buildings = Rs.343/- + Rs.120/- = 463/-. Therefore this does not fulfil the condition laid down by the Government of India.

Superintending Engineer,S.C.

Submitted with reference to the O.n. dt. the 1-6-5 p.8
24-a The S.E, Southern Circle in his P.W.O.n. No. DD-18: dt. the 25-10-51; states, that, the conditions laid down by the Govt of India in regard to the works in Bungalows along the National Highways, are not satisfied by the work in question. The Govt of India cannot therefore asked to bear the weight of the work. The finan for providing lights in the P.W.D. Rest House at Haveri, will have to be met by the Govt of Bbay It is therefore for consideration, whether, the above work should be held in abeyance in view of the present financial stringency.

& [Thro DE(I)]
20-11-51

Electric installation in all P.W.D Bungalows & rest houses is a necessity

This is particularly so where they are frequently habited ie for more than 180 days of a year. This will save facilitate travels to a great extent.

D.S (PR)

If Haveri it is not possible to do this the work during 1951-52 it may be provided for during 1952-53.

Bombay, 1. 22nd December '51.

Returned with compliments.

2. The rent on account of electric installation and consumption of electric energy in respect of the Rest Houses, Travellers Bungalows etc is recovered by the Executive Engineers, Civil Engineering side and therefore this office is unable to supply the required information. It is suggested that the Superintending Engineers of Circles may be requested to supply the necessary information, as they may be in a better position to collect the same from the Executive Engineers working under them.

BOMBAY 1.

No. DM-22.

Public Works Department,
BELGAUM: 24 April 1950.

Subject: Providing Electric Installation in the P.W.D. Rest House at Haveri.

At present there is no lightening arrangement in the P.W.D. Rest House at Haveri which is situated on the Poona Bangalore Road. As per instructions contained in Govt. P.W.D. Bombay letter No.2092/36-W dated the 5th August 1948, provision of lighting arrangement is to be made in all the District, Travellers', Inspection Bungalows & Rest Houses etc. A plan and an estimate, the latter amounting to Rs. 2,857/- for providing lighting arrangements in the Rest House at Haveri is therefore got prepared by the Executive Engineer, Southern Electric Division Poona and they are submitted herewith for obtaining approval of the Government of India thereto at an early date. A certificate from the Executive Engineer, Southern Electric Division regarding the provision made is attached to the estimate.

2. Since the work is a minor original one under - 50, C.W. Provincial, on National Highways approval of the Government of India to the plans & estimate and funds for the work may please be obtained early.

To,

The S.Es of Circles.

Subj:- E.9 in the District Bungalows, Rest Houses etc. along the National Highways.

1. With a view to facilitating tourist traffic and provide amenities to the camping officers, Govt proposes to have E.9s, in all P.W.D Bungalows and Rest Houses, which are frequently habited i.e for more than 180 days in an year.

2 The Govt of India has however laid down certain stipulations, whereby, if the Bungalows lie along the National Highways, the additional fees levied on account of this E.9, must bring in an average annual revenue to the state, at least equal to 12% of the cost of E.9 plus the cost of current consumed in an year.

3 You are therefore requested to furnish at an early date a list of all such Bungalows where E.9 is found to be necessary and which satisfy the above stipulations.
